PROFILE

Full-stack developer and startup founder building mobile apps and business tools. Experience in transport, chemical distribution and startup product development. Computer Science student at PJATK; advanced use of AI coding agents.

EXPERIENCE

Full-Stack Developer · УТК ХімАльянс | Jul 2026 – Present

- Build a Flutter operations app for a chemical manufacturer and importer, connecting sales orders, stock reservations, invoices and shipments.
- Connect Google Sheets price data to a shared product catalogue; show available stock and reservations to reduce manual checks.
- Bring sales plans, performance reports and delivery status into one system, with role-based access and offline support.

Business Development & Developer · Actual Armor | Feb 2026 – Present

- Pitched the product at a fundraising event organised by 1991 Ventures.
- Support business processes, test software and contribute to development; build landing pages for marketing funnels.

Full-Stack Developer · Lifert Trans | Aug 2025 – Apr 2026

- Built 2 cross-platform apps for dispatchers and drivers to manage transport orders, trip progress, fuel, repairs and driver pay.
- Automated driver pay calculations, tax and income reports, trip sheets and transport booking requests; enabled delivery document uploads and offline sync.
- Set up GitHub Actions releases for 3 platforms: Windows, Android and iOS.

STARTUP

Founder & Full-Stack Developer · Corner

corner.in.ua | Live on the App Store; Google Play review in progress

- Built and launched a Flutter app with 100+ daily active users (DAU), helping athletes, parents and coaches find clubs, join and manage classes.
- Combined recurring schedules, attendance, payment tracking and family profiles in one app, using Supabase, Firebase notifications and Mapbox.

TECHNICAL SKILLS

Development: Flutter, Dart, React, Python, PostgreSQL, Supabase, Firebase

Delivery: Git, GitHub, CI/CD, GitHub Actions, AI coding agents

EDUCATION

Polish-Japanese Academy of Information Technology (PJATK)

Computer Science, undergraduate studies in English · Semester 3 · In progress

HACKATHONS

Active hackathon participant. **2 wins:** Codaro Coding Challenge (sponsored by 42 Warsaw and Google for Startups) and Day One Ukraine.

LANGUAGES

Ukrainian C1 · English B2 (IELTS 6.5) · Russian C1
